

## Assisted Living Waiver

The Assisted Living Waiver Program helps Medicaid-eligible Ohioans receive assisted living services in a Residential Care Facility.

This program is available to individuals who:

- 1) are currently residing in a nursing home; *or*
- 2) are Medicaid home-care program participants and already require or may require permanent residence in a nursing facility; *or*
- 3) are current residents of Residential Care Facilities who have paid privately for six months

### • Benefits

The ALW Program pays for complete assisted living services. Some individuals are eligible for a one-time allowance to help cover the costs of moving to an assisted living location. All participants also receive a Medicaid card that can be used to pay for physician visits, therapies, nursing and other services.
